

Delivering bespoke solutions to companies in the mining sector

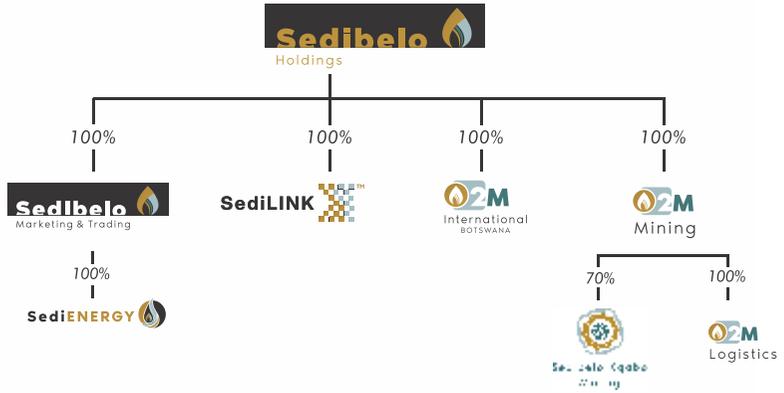

About Our Company

2M Logistics (Pty) Ltd operates as a wholly-owned subsidiary of 2M Mining (Pty) Ltd, a proudly South African mining services company that is black-owned and committed to providing tailored solutions for the mining industry.

2M Mining, established in 2021, is a division of Sedibelo Holdings. Sedibelo Holdings is structured to seamlessly provide mining companies with cost-effective solutions while also creating sustainable employment opportunities for local communities.

Sedibelo Holdings' organisational framework facilitates vertical integration of services across the group, creating cohesive networking channels that enhance our delivery capabilities. Each business entity within the group contributes to the overall efficiency and robustness of our value proposition.

GROUP STRUCTURE

We are active in a broad spectrum of mining activities

2M Mining, offers end-to-end mining services for both surface and underground mining environments. SKM and 2M Logistics are two divisions operating within this environment and boasts experienced and talented core teams.

SKM provides down-the-hole drilling of blast holes in open pit operations. SKM has the equipment and personnel to drill in both hard (platinum, manganese, iron ore) and soft rock (coal) operations. Our production teams are supported by an engineering team comprising engineers, technicians and artisans with proven experience in maintaining and repairing the leading equipment brands. SKM has a strategic partnership with Sandvik Mining, a Tier 1 original equipment manufacturer of surface and underground trackless mining machinery from Finland, that ensures comprehensive after-sales support.

2M Logistics specializes in short and long-haul logistics for minerals and other commodities within and beyond mine environments, offering tailored material handling solutions to meet client needs.

2M International was incorporated with the aim of providing sustainable solutions to the Botswana market while creating access to regional opportunities through strategic partnerships with local businesses. We are committed to empowering local entrepreneurs and communities, fostering economic growth, and building long-term relationships that go beyond mere transactions. In addition to leveraging Africa's abundant mineral resources to serve clients across global commodity markets, we offer end-to-end mining services for both surface and underground environments.

Sedibelo Marketing & Trading has established itself as a reliable and trusted supplier of hard commodities in various sectors. Our steadily expanding product range now includes coal, limestone, magnetite, iron ore, manganese, PGM, gypsum, as well as petroleum and energy solutions. Leveraging Africa's rich mineral diversity, we serve clients across global markets.

We build strong partnerships that go beyond transactions, fostering collaboration, mutual trust, and shared values. Through co-creation and a commitment to realising these values, we gain a deeper understanding of the businesses we serve—allowing us to anticipate their needs and deliver tailored solutions. **'We don't sell commodities; we sell solutions.'**

SediENERGY as a full-spectrum provider of petroleum, gas, and integrated energy solutions to meet diverse industrial and commercial needs.

SediLINK develops custom innovative technology that seeks to ensure compliance, ease and simplification for decision making through digitisation and automation of everyday processes. Our primary focus is the mining sector and related industries.

Our Services

2M Logistics offers load and haul operations on open-cast coal mines, coal transportation and logistics solutions. Our team works closely with the mine's production team and other contractors to efficiently haul coal to its next destination.

Safety on site and during transportation is a priority, and we pride ourselves on providing the highest levels of customer service.

Safely Delivering, Cost Effective, High Productivity Mining Services

Tshiamo Matshego

DIRECTOR: 2M MINING
CHAIRMAN: SEDIBELO HOLGINS

Tshiamo is driving the group's growth in the coal sector, both in trading and other broader initiatives in information technology, including the development of proprietary systems for SKM.

Tshiamo is also responsible for overall strategy development and implementation, financial management and corporate affairs.

He cofounded Mnambithi Group where he spent over 3 years as Director in various subsidiaries and Chief Operating Officer of the group. Mnambithi is in shipping, aviation and mining. He previously founded a coal trucking business that used to supply coal to Eskom Duvha power plant, and also a litho-printing company.

As an IT Specialist, he worked for Standard Bank, Borland Inprise, Safika-BEA (a subsidiary of Safika Holdings) and IBM. During his tenure at IBM, he was the Public Sector Software Sales Leader in the software group. His clients included SARS, the Department of Home Affairs, SAPS and State Information Technology Agency.

Tshiamo was employed by Johannesburg Consolidated Investments (JCI) as a Learner Official for a period of a year where he was exposed to platinum, gold and coal mining before he went to study electrical engineering in Cape Town.

ND Electrical Engineering LC (Cape Technikon)
BCom IT (UCT)

Kgolagano Matshego

DIRECTOR: 2M MINING
MANAGING DIRECTOR: SKM

Kgolagano is currently Managing Director of SKM, where he has established SKM as the sole drilling contractor at PPM, delivering over 40 000 meters of high-production drilling every month.

He spent 3 years with Mnambithi Group as a Shipping Executive, where he was based in Durban working at Odfjell Mazibuko South Africa – a joint venture between Mnambithi and Odfjell Tankers AS, Norway.

Apart from being responsible for maintaining the joint venture relationship, Kgolagano maintained key strategic shipping clients for the JV such as Foskor and PetroSA, as well as new business development. His duties also included stakeholder management of Transnet (ports and terminals) and shipping agencies.

He spent 2 years working for the Ministry of Education in South Korea. Before that, he sold insurance products whilst studying at the University of Cape Town.

QUALIFICATIONS

BBusSci Economics (Hons)(UCT), Import and Export Management (Johannesburg Chamber of Commerce)
Foundation Diploma in Port Agency (Institute of Chartered Ship Brokers, UK)

Marco Nyoni

DIRECTOR: 2M MINING

Marco is responsible for the group's capital raising and financing to fund growth. He also provides overall strategic support to the group.

Marco has extensive experience in the resources sector and skills covering mineral exploration, project management, mining economics, corporate finance and business strategy.

Marco started in the field of geophysics, working in base and precious metal exploration in southern Africa. Later his focus shifted to, mining economics, project analysis and evaluation, and strategy.

He has held senior management roles in investment banking at Standard Bank Corporate & Investment Bank (CIB) and Rothschild South Africa and in mining at Anglovaal Mining (African Rainbow Minerals), Anglo American Corporation of South Africa, Vedanta Zinc International and Barloworld Equipment.

He has also consulted in the areas of capital raising, business development, and operational turnaround of mining and industrial companies.

QUALIFICATIONS

BSc (Hons) (Soton) & MSc (Curtin)
MBA (GIBS)

Experienced entrepreneurs with investments in several businesses and extensive knowledge and networks in the mining sector

About Our Principals

We strive for continuous improvement in everything we do

ZERO HARM

OUR IMPECCABLE SAFETY RECORD SHOWS OUR COMMITMENT TO “ZERO HARM”

We value teamwork, and work to ensure safety for all in everything we do.

We have an impeccable safety record. SKM has zero safety incidents and zero LTIs in over 600 days of operation.

EQUIPMENT AND OPERATIONAL EFFICIENCY

WE FOCUS ON EFFECTIVE EQUIPMENT AND OPERATIONAL EFFICIENCY

We select equipment from proven OEM's, based on a detailed analysis and understanding of the required application.

We select equipment with a clear strategy for achieving high parts availability and ease of maintenance throughout its effective life.

Each of our operational sites has a dedicated control room that monitors operations in real-time, and gives senior management immediate access to the operations through a proprietary smartphone application.

TRAINING & DEVELOPMENT

AN INVESTMENT IN OUR PEOPLE IS AN INVESTMENT IN OUR FUTURE GROWTH

We train our operators to get the best out of each machine safely and cost-effectively.

Our artisans are trained to the highest standard by both the OEM and internally. Artisan's KPI's include maintaining their training credentials, delivering high equipment availability and the lowest mean time to repair.

EQUIPMENT MAINTENANCE

EQUIPMENT MAINTENANCE IS AT THE CORE OF OUR BUSINESS

Optimal operational efficiency based on regular equipment maintenance, predictive monitoring, and early identification of potential issues.

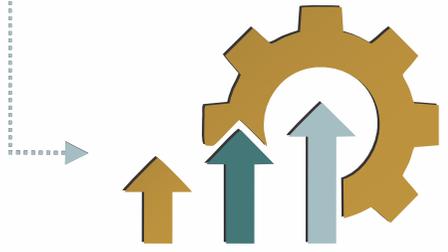

Our in-house engineering team has developed unique tools for equipment performance monitoring, and maintenance.

We focus on higher equipment availability and productivity, lower maintenance costs, lower total cost of ownership, fewer outages, optimal equipment performance and a greener operation.

TRANSFORMATION

WE ARE BLACK-OWNED AND MANAGED WITH A LEVEL 1 BBBEE RATING;

We aim to empower local communities and our employees through training and development..

OUR VISION, MISSION AND VALUES

VISION

To maximise the productivity of our people and equipment in order to deliver the most cost-effective logistics solutions to our customers

Trust

We build trust through transparency, consistency, and reliability in all our relationships

Innovation

We believe in the continuous improvement of our solutions and fresh thinking

We keep up with technological advancements

Safety

We prioritise safety above zero harm, protecting people, property and the environment

We create spaces where people feel safe to express ideas or concerns without fear of judgment

Excellence

We are committed to high standards of delivery, precision and exceeding expectations

Professionalism

We display ethical behaviour, treat others with dignity, politeness and respect

Accountability

We own and take responsibility for our actions, results, performance and behaviour

Relationships

We foster mutual respect and long-term connections with clients, colleagues and communities

**By living our values,
we create a better
future, one action
at a time**
