

Sedibelo 

Holdings

Our vision is to be a global African diversified industrial company

A photograph of two men standing back-to-back in front of a large open-pit mine. They are wearing blue high-visibility jackets with reflective white stripes and khaki pants. The man on the right is wearing yellow safety glasses. The background shows the layered rock walls of the mine under a clear sky. A large yellow curved graphic element is on the left side of the image.

Founded by the Matshego brothers in 2010, Sedibelo Holdings has diversified its portfolio, participating in a broad spectrum of activities within the mining and energy sectors

ABOUT US

Sedibelo Holdings (SH) is a diversified industrial services group, founded in 2010, with a growing legacy of innovation and operational excellence.

As a 100% black-owned, proudly South African enterprise, we are committed to shaping the future of the mining and energy sectors through our three foundational pillars: technology, mining services, and commodity trading.

With a deep understanding of industry dynamics and a commitment to empowerment, we drive value creation, foster strategic partnerships, and contribute to the growth of Africa's industrial landscape while facilitating access to global markets.

Sedibelo Holdings' organisational framework facilitates vertical integration of services across the group, creating cohesive networking channels that enhance our delivery capabilities. Each business entity within the group contributes to the overall efficiency and robustness of our value proposition.

GROUP STRUCTURE

A 100% BLACK-OWNED GROUP OF BUSINESSES

SUSTAINABILITY

We realise that to create a sustainable business – our values need to be relatable and aligned with our group strategy. Our values underpin our goal of positively impacting on the environment and communities in which we operate. We believe that the only way in which we can bring our values, vision, and mission to life is to hold our entire team accountable to the three pillars of our sustainability strategy.

ENVIRONMENTAL

Strive to minimise our carbon footprint through solutions-driven procurement of state-of-the-art equipment with the lowest gas emissions and highest energy ratings.

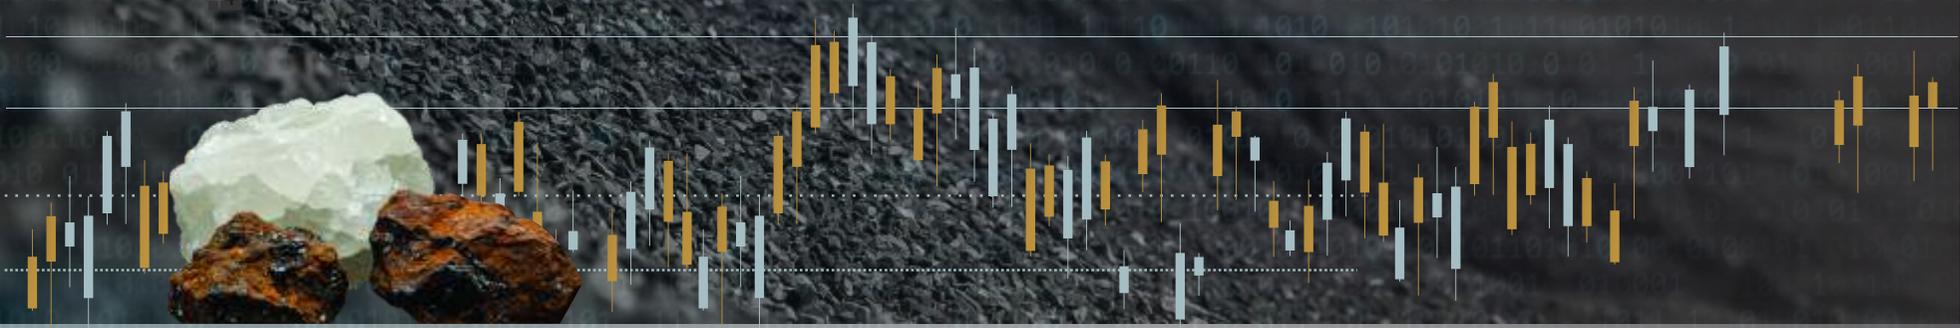

SOCIAL

Build a competent, resilient and representative team through ongoing training and development and employment strategies focused on creating opportunities for women in operational functions.

CREATING VALUE

Ensure job creation and enterprise development at local level and create value through activities such as;

- participation in local employment forums as a means of identifying and employing job seekers best suited to our operations
- ongoing support of local businesses through our Enterprise Development initiatives
- investing in the communities we serve
- upholding the highest standard of corporate governance

2M Mining, offers end-to-end mining services for both surface and underground mining environments. SKM and 2M Logistics are two divisions operating within this environment and boasts experienced and talented core teams.

SKM provides down-the-hole drilling of blast holes in open pit operations. SKM has the equipment and personnel to drill in both hard (platinum, manganese, iron ore) and soft rock (coal) operations. Our production teams are supported by an engineering team comprising engineers, technicians and artisans with proven experience in maintaining and repairing the leading equipment brands. SKM has a strategic partnership with Sandvik Mining, a Tier 1 original equipment manufacturer of surface and underground trackless mining machinery from Finland, that ensures comprehensive after-sales support.

2M Logistics specializes in short and long-haul logistics for minerals and other commodities within and beyond mine environments, offering tailored material handling solutions to meet client needs.

2M International was incorporated with the aim of providing sustainable solutions to the Botswana market while creating access to regional opportunities through strategic partnerships with local businesses. We are committed to empowering local entrepreneurs and communities, fostering economic growth, and building long-term relationships that go beyond mere transactions. In addition to leveraging Africa's abundant mineral resources to serve clients across global commodity markets, we offer end-to-end mining services for both surface and underground environments.

Sedibelo Marketing & Trading has established itself as a reliable and trusted supplier of hard commodities in various sectors. Our steadily expanding product range now includes coal, limestone, magnetite, iron ore, manganese, PGM, gypsum, as well as petroleum and energy solutions. Leveraging Africa's rich mineral diversity, we serve clients across global markets.

We build strong partnerships that go beyond transactions, fostering collaboration, mutual trust, and shared values. Through co-creation and a commitment to realising these values, we gain a deeper understanding of the businesses we serve—allowing us to anticipate their needs and deliver tailored solutions. **'We don't sell commodities; we sell solutions.'**

SediENERGY as a full-spectrum provider of petroleum, gas, and integrated energy solutions to meet diverse industrial and commercial needs.

SediLINK develops custom innovative technology that seeks to ensure compliance, ease and simplification for decision making through digitisation and automation of everyday processes. Our primary focus is the mining sector and related industries.

OUR LEADERSHIP

The Matshego brothers are both seasoned entrepreneurs with hands-on operational and management experience in shipping, road freight, trading, marketing and sales within the energy and mineral sectors.

The duo's ability to link their entrepreneurial and strategic vision has firmly established Sedibelo Holdings as a serious contender in the mining services sector.

Executive Chairman **Tshiamo Matshego**

Tshiamo is driving the group's growth in the coal sector, both in trading and other broader initiatives in information technology, including the development of proprietary systems for SKM. He is also responsible for the group's overall strategy development and implementation, financial management and corporate affairs.

He holds a BCom IT (UCT) and an ND Electrical Engineering LC (Cape Techikon). His resumé includes operational and managerial experience in the trucking, aviation, mining and IT sectors, this expertise, coupled with extensive sales in his role as public sector software sales leader for IBM serves him well in his current role.

Executive Director **Khuli Matshego**

Khuli has started ventures in coal production, rough diamond trading, marketing, shipping and logistics (energy and mineral products). He is responsible for the strategy and management of SKM and delivering on the company's vision.

He holds a Bachelor in Business Science Economics (Hons) degree from UCT, a diploma in Import and Export Management from the Johannesburg Chamber of Commerce and a Foundation Diploma in Port Agency from the Institute of Chartered Ship Brokers in the UK.

OUR VISION, MISSION AND VALUES

VISION

To be a global African diversified industrial company
